Fond du Lac County Quarantine Recommendation Changes

FOND DU LAC, WI – Attached are the updated Fond du Lac County Health Department quarantine recommendations. The updated recommendations will take effect on Monday, December 7, 2020. Until then, Fond du Lac County Health Departments recommends the current 14-day quarantine protocol. As Wisconsin Department of Health Services (DHS) updates and releases their quarantine handouts and materials, we will update our COVID-19 website. We ask that you start to prepare how you will implement these changes to your business, organizations, agency or company.

Employers, please keep the following in mind:

- Access to testing for release of quarantine may impact ability for early quarantine release options.
- Individuals that are currently quarantined can use the new guidance starting Monday, December 7th.

Due to limited testing capabilities, the COVID-19 clinic offered through Agnesian HealthCare is unable to offer testing for early quarantine release of asymptomatic individuals.

For more information on COVID-19 and community testing sites, please visit the Fond du Lac County COVID-19 webpage at www.fdlco.wi.gov
